## EXHIBITOR

Myovant Sciences and Pfizer aspire to redefine care for women by developing empowering medicines that can change treatment paradigms for various conditions that impact women's health. By combining Myovant's commitment to purpose-driven science with Pfizer's deep heritage and leadership in women's health, we are uniquely positioned to provide innovative treatments that fulfill significant unmet needs and make a meaningful difference in women's lives.

## EXHIBITOR

Family owned since 1973, R&S Northeast has been a supplier of various healthcare products, including Brand and Generic Pharmaceuticals, Medical and Surgical supplies, and Infection Control products. R&S is committed to providing our customers with top quality healthcare products and unmatched customer service.

Operating as a National Wholesaler, R&S develops third party contract sales to 340B eligible customers, State and Local Governments as well as the Department of Defense. R&S also functions as a primary and/or secondary source of supply to a number of pharmacies and universities throughout the United States.

And new through a combined effort with our sister company, AvKARE, LLC, R&S's new Target Supply Program has been created to allow our members to allocate products that are in need or in high demand, without the wholesaler fee. The combined catalogs and sales teams of the two companies, along with R&S's warehouse capacity allows us to hold products for our customers and ship when needed with no wholesaler fee.
